- 11.00 Experiences with no-smoking areas in Swiss restaurants Spillman-Thulin, Switzerland.
- 11.15 A smoking policy for hospitals. Ball, UK.
- 11.30 Health activities by the people. Von Holst and Ejnell, Sweden.

B) Studies on smoking cessation. Chairman: Arvidsson, Sweden.

- 08.30 Clinical applications of a broad-spectrum behavioral treatment for smoking. Lando, USA.
- 08.45 A research/service smoking clinic. Lichtenstein, USA.
- 09.00 Analysis of relapse episodes following smoking cessation. Shiffman, USA.
- 09.15 The picture-association method and its application in the smoking cessation therapy. Tahy, Hungary.
- 09.30 Comprehensive self-control in smoking cessation: An alternative to rapid smoking. Fisher, Lowe, Green, Kurtz and Ashenberg, USA.
- 09.45 Experiences in "Five-day plan to stop smoking" clinics in Finland. Hirv, Finland.
- 10.00 Break
- 10.30 Smoking behaviour at one year in participants at 5 day plans in Belgium. Kornitzer, Gheysens, Lanno and Ravet-Ramioul, Belgium.
- 10.45 Long term results of group therapy and nicotine chewing gum in smoking cessation. Hjalmarsson, Sweden.

1000040300

- 11.00 Micro analysis of smoking behaviour after nicotine and non-nicotine cigarettes and nicotine and non-nicotine chewing gums. Götestam and Götestam, Norway.
- 11.15 Nicotine containing chewing gum in smoking cessation: A double blind trial with half year follow-up. Björkqvist, Koskela and Puska. Finland.
- 11.30 Smoking cessation through simple instructions, nicotine chewing gums, and cognitive methods. Melin, Sweden and Götestam, Norway.
- 11.45 A controlled trial of nicotine replacement therapy in a smoking withdrawal clinics, Bee, UK.

Afternoon

A) Smoking and the cardio-vascular system. Chairman: Hay, New Zealand

- 14.15 Carbon monoxide kinetics immediately following simulated cigarette smoking. Karnik, USA.
- 14.30 Effect on serum cholesterol and serum triglyceride levels in rabbits continuously exposed to 50 ppm carbonyl sulphide. Kamstrup and Hugod, Denmark.
- 14.45 Morphological investigations on histotoxicity of gas phase constituents of tobacco smoke in the rabbit. Hugod and Astrup, Denmark.
- 15.00 Smoking and the diseases of the blood vessels of extremities. Milosevic Radivojevic, Rafailovic and Tubic, Yugoslavia.
- 15.15 Break
- 15.45 The study of relationship between coronary heart disease and smoking. Colakovic, Yugoslavia.
- 16.00 Coronary screening and compliance study to stop smoking. Saxena, Australia.
- 16.15 The effects of cigarette and nicotine chewing gum (Nicorette) on the blood pressure, heart frequency and skin temperature in healthy smokers. Sjögren and Fredholm, Sweden.
- 16.30 The relationship of cigarette smoking to blood pressure : A longitudinal study. Sparrow and Rowe, USA
- 16.45 Smoking and central blood circulation at rest and during exercise. Timisjärvi, Kuikka, Hirvonen and Kari-Koskinen, Finland.
- 17.00 Nicotine mediated effects during adrenergic blockade with respect to plasma nicotine/cotinine and COHb-levels. Spohr, Hengen, Harenberg, Mörl, Vedsei and Weber, FRG.

1000040901

B) Special questions with regard to a) intervention activities and b) exposure to tobacco smoke.

Chairman : Hauknes, Norway.

- 14.15 Reducing cardiovascular risk among hypertensives by antismoking health education. Elo, Tuomileht, Nissinen and Puska, Finland.
- 14.30 Influences of smoking to health status in school-children taken as sample. Colakovic, Yugoslavia.
- 14.45 Community education on smoking through school children. Kawano, Japan.
- 15.00 Comprehensive school pupils' knowledge of the tobacco law and the health hazards of smoking in Finland. Kannas, Finland.
